Go the extra mile!

Our All Purpose Cream and Tanbark fabrics use tightly woven all-purpose constructions dyed to either a Cream, Tanbark, or Light Tan shade. The Cream is darker than the Light Cream and the Tanbark is the traditional very dark brown color common to the sailing barges in Holland. Light Tan is a pleasing shade resembling a rich, red mahogany.

- ☪ All Purpose constructions in Cream and Tanbark for traditional sails
 - ☪ Woven with high tenacity yarn ensuring performance, durability and good strength retention to UV
- Cream and Light Tanbark are stock items.

Oceanus ship's cloth combines the lighter weight and longevity of a modern polyester fabric with the color, texture, and hand of a traditional cotton ship's cloth. Warp oriented in construction and lightly finished for a soft hand, Oceanus is woven with solution dyed fiber for permanent and consistent color from lot to lot. Developed in conjunction with Nat Wilson, the traditional sailmaking authority from East Boothbay, Maine, Oceanus is a good choice for tall ships, training vessels, and traditional sailing yachts.

► OCEANUS

Style	Construction	Colors	Width
#7	500 x 500	✓	18"
#10	1000 x 1000	✓	18"
#13	1370 x 1370	✓	20"
#16	1960 x 1960	✓	20"

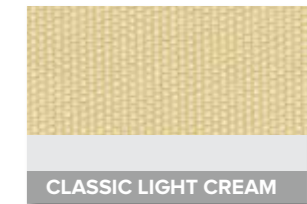

- ☪ A traditional ship's cloth of durable construction with natural and solution dyed polyester yarns
- ☪ Natural color available against special order

Based on our premium quality Low Aspect constructions, Classic Light Cream fabrics are designed for applications on larger classic yachts where sail shape and performance are as important as the traditional appearance. The light shade of cream allows for 2 ply sail construction without having the cream color get too dark.
